### ***Program Description***

The *Tactical Training for Undercover Teams* is a four-day (32 hours) training program focusing on the enforcement side of undercover operations. This entry-level class is designed for narcotics officers, patrol officers and other law enforcement personnel who participate or assist in high-risk related operations. During this program, students will plan and execute a series of tactical operations to include: “buy bust” operations, “reverse” operations and vehicle takedowns/assaults. The class will conclude in the planning and execution of a “multi-kilo drug bust” in which the students will be graded. This training will be especially useful to officers who routinely support their undercover officers in responding to help the undercover or to simply arrest the suspect. The training will also cover the various aspects of “take downs” utilized in Vice and Human Trafficking Operations. Students attending the class are asked to bring both “tactical gear” and “undercover” clothing.
