

Charlie Fuller's
Undercover Techniques and Survival for Women
March 5 - 9, 2018 TEXOMA HIDTA Irving, TX

A five-day (36 hours) training program designed for female law enforcement officers who intend to or routinely participate in covert undercover operations. Officers who participate in covert operations are not born with the talents needed to perform effectively and safely in undercover situations. These talents are developed from experience, hard work and training. When working undercover, female police officers face situations and problems unique to their gender. This program will provide the students with the techniques and survival tactics necessary to compliment their present undercover experience. Many times this can make the difference between success or failure and safety or injury.

This training is ONLY open to women law enforcement officers, prosecutors and intelligence analysts. Attendance is limited. Register early to ensure your attendance.
